I. Introduction

- I.1 Cheshire College - South & West recognises that academic awards may result in a professionally recognised qualification and that academic success alone may not meet all of the professional requirements which might include for example, physical health, mental health, moral or behaviour matters. In confirming appropriate academic qualifications or admission to a professional body and/or statutory registration Cheshire College - South & West must be satisfied that the student will be a safe and suitable entrant to the given profession.
- I.2 Students accepting a place at Cheshire College - South & West to study on one of its HNC/D Pearson programmes, or on a higher education programme that is being run in conjunction with its collaborative partners are required to comply with all HE academic regulations and College policies and procedures of both Cheshire College - South & West, and where applicable its collaborative partners. Such regulations and procedures apply equally off College sites and especially in the various placement settings into which a student may be placed as part of their programme of study.
- I.3 Students who after enrolment and registration onto a higher education programme do not comply with the relevant regulations and procedures and where their behaviour or issues have not improved following the application of College policies and procedures and that behaviour is considered to be damaging or dangerous to service users, other students, staff of the College and its partners or which creates an unacceptable risk to themselves or others will be subject to the Fitness for Practice procedure.
- I.4 The Fitness for Practice procedure exists to ensure students adhere to strict professional standards on specific professional courses at the College.
- I.5 The following programmes are subject to the Fitness for Practice procedure:

Programme title	Applicable procedure
BSc (Hons) Person Centred Counselling	University of Derby Cheshire College - South & West
HNC / D Health & Social Care	Cheshire College - South & West

2. Fitness for Practice

2.1 Where a student is registered on a programme that leads directly to, or which satisfies the conditions of, a professional qualification or which gives the right to practice in one or more professions, the student must not engage in any behaviour which renders them unfit to be admitted to that profession.

2.2 The following circumstances are examples which could render a student unfit to practice:

- a) Any circumstances which may call into question a student's fitness to be admitted to and to Practice their profession
- b) Offences against or exploiting the vulnerable, including children, the elderly and the mentally incapacitated;
- c) Chronic drug or alcohol misuse / abuse;
- d) Acting in a violent manner on or away from College premises;
- e) Conviction of a relevant criminal offence;
- f) Intimidation of pupils, fellow students, patients or clients;
- g) Failure to rectify behaviour that has been subject to any disciplinary actions under the College and / collaborative partner policies and procedures;
- h) Repeated inappropriate behaviour towards others;
- i) Falsification of records;
- j) Severe or relapsing mental illness;
- k) Being a carrier of a serious communicable disease
- l) Any circumstances which may breach the professional code of Practice applicable to the profession which the programme qualifies the student to enter upon graduation

Any report must state and detail which College policies and / or procedures have been followed to the point of referral.
